

## Thank You for Protecting Belmont's Environment

### Idling hurts everyone.

Idling contributes to local air pollution and global climate change.

### Idling wastes fuel and money.

More than 10 seconds of idling uses more fuel than restarting the engine.

### Engines are designed to drive, not idle.

You can damage engine components by idling.

### Idling engines get 0 mpg.

## Join Us in Protecting Belmont's Environment

*Turn off your engine if stopped for more than 10 seconds.*
