

Welcome to Sustainable Belmont!

Thank you for joining us. We are glad you share our concern about the environment and are interested in learning more about what we do. Our organization is a task force of the Vision 21 Implementation Committee. (See # 3 and 4 below for details.) In this folder you will find materials that will provide information about who we are, what we've done, and how we work.

First, some essentials:

Monthly meetings: Held on the first Wednesday of the month, generally in the Library (either in the Assembly Room or in the Flett Room, both on the ground floor.) 7 – 9 p.m.

Membership: Everyone is welcome. There are no dues.

Mailing list/ Announcements: Our email address is sustainablebelmont@gmail.com. Additionally, we host a list-serve that includes announcements of regional environmental events -- lectures, workshops, articles etc. To join the list-serv, please send a request to the e-mail address above.

Working Groups

At present, we have three working groups. New members are welcome to join any of these. (For more information, please send us an email.) The groups are:

- Climate Action Plan (CAP) – charged with drafting a Climate Action Plan for Belmont and vetting the draft with the Belmont community.
- Cleaning the Air (anti-idling) — a public education campaign that works with the community to eliminate vehicle idling, and to support a pedestrian and bike-friendly community.
- Publicity and Communications – assigns and writes articles for the local paper and other publications on a variety of environmental issues; coordinates publicity for Sustainable Belmont events; and is working on developing a website for the organization.

In this folder are the following materials about Sustainable Belmont:

1. Mission Statement (Mandate)
2. Background and Major Accomplishments (Summary)
3. History, Governance and Structure
4. A Working Vision for Belmont's Future
5. Contact sheet for active members of Sustainable Belmont

We look forward to meeting you and to working with you on the environmental challenges we face. We believe that this work is of paramount importance not only to us but also to the generations that follow.

May 2008
